

# A Greener Justice

Finding the space  
for urban pocket parks

# The problem

---

Access to urban green space improves human wellbeing & community engagement.

Poor neighborhoods tend to have fewer parks.

## The solution

### **Pocket parks**

Provide safe and comfortable locations for community engagement.

Cost-effective solution for developed communities.

---

An aerial photograph of the Memphis skyline at sunset. The Mississippi River flows through the city, with several bridges visible in the distance. A vibrant rainbow is visible on the left side of the image, arching over a cluster of buildings. The sky is filled with dramatic, orange-hued clouds. The text "Now is the time. Memphis is the place." is overlaid in a large, white, serif font across the upper portion of the image.

Now is the time.  
Memphis is the place.

# Memphis, TN

Goal

**Characterize  
Memphis  
neighborhoods by  
outdoor recreational  
features  
&  
Determine pocket  
park priority  
locations.**

---

# Data Sources

**tripsavvy**

Memphis neighborhoods &  
zip codes

**FOURSQUARE**

Venues in neighborhoods

**Memphis Data**

Community centers in  
neighborhoods.

# Methodology

## Acquire Data

Scrape trip savvy for neighborhood and zip code data.

## Explore the Neighborhoods

Map the neighborhoods and select an appropriate radius to do a foursquare venue search.

## Determine Park Location

Generally categorize neighborhoods by those that do or do not have outdoor parks.

## Map Community Centers

Evaluate which neighborhoods lack parks and community centers

## Cluster Neighborhoods

Cluster neighborhoods using venue categories and geographical location.

# Mapping

1,500 m radius for Foursquare search

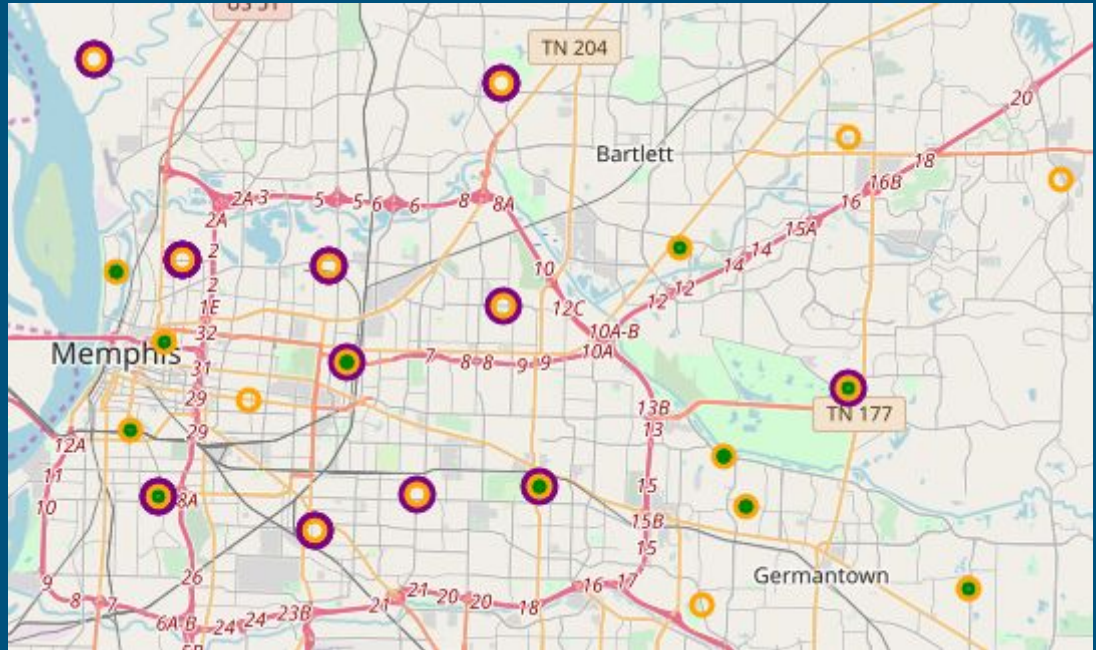

# Mapping

**Orange:** Neighborhoods of interest

**Green:** Park in neighborhood\*

**Purple:** Community center in neighborhood\*

\* At least 1

KMeans Cluster:

0- Restaurants

1- Frayser (only one  
Foursquare category)

2-No free amenities

3- Zoo (free part of year)

Neighborhoods with no parks	Number of Community Centers	KMeans Cluster	DBSCAN Cluster
Cordova	0	0	0
Midtown	0	0	1
North Memphis	3	2	1
Kingsbury	2	3	1
University of Memphis Area	1	0	1
Orange Mound	2	0	1
East Memphis	0	0	2
Berclair	2	0	3
Frayser	2	1	-1
Raleigh	2	0	4
Bartlett	0	0	5

DBSCAN Cluster:

By Geography. Most of the 1's within loop except Berclair.

## Proposed Areas

### Pocket parks priority locations:

\*Midtown

\*Cordova

\*Bartlett

\*East Memphis

\*Frayser

---

# Data Limitations & Future Directions

---

Foursquare was not ideal for parks in Memphis: existing parks not listed (such as Audubon in the University district)

Income by Zip Code would enhance inferences.

Dataset with vacant land/public lots for specific pocket park locations desirable.

---
